The Library of Rush University Medical Center offers members of the Rush community access to a wealth of clinical resources. Please visit the Library home page at

http://rushu.libguides.com/

**AccessMedicine**
Online collection of medical reference texts that provide medical data. Access the information necessary for completing evaluations, diagnoses, case management decisions, conducting research, medical education, or self-assessment and board review.

**ACP Journal Club**
Database of quality-assessed, clinically rated original studies and reviews from over 130 clinical journals. Available at [http://www.acpjc.org/](http://www.acpjc.org/)

**Autism Data**

**CINAHL** *(Cumulative Index to Nursing & Allied Health Literature)*
Database of literature related to nursing and allied health. Journals are indexed from the following fields: cardiopulmonary technology, physical therapy, emergency service, physician assistant, health education, radiologic technology, medical/laboratory, technology therapy, medical assistant, social service/health care, medical records, surgical technology, and occupational therapy. Available through Ebscohost.

**ClinicalKey**
Offers access to medical texts, journal articles, practice guidelines, drug monographs, multimedia, and ABIM procedure references.

**ClinicalTrials.gov**
Developed by the National Institutes of Health (NIH). Provides current information about clinical research studies. Available at [http://clinicaltrials.gov](http://clinicaltrials.gov)

**Cochrane Controlled Trials Register**
Bibliographic database of definitive controlled trials. These controlled trials are identified by the distinguished contributors to the Cochrane Collaboration. They have combined results to create an unbiased source of data for systematic reviews. Available through Ebscohost.

**Cochrane Database of Systematic Reviews**
Includes the full text of systematic clinical reviews prepared by The Cochrane Collaboration. Available through Ebscohost.

**Database of Abstracts of Reviews of Effectiveness**
Full text database containing critical assessments of systematic reviews regarding diagnosis, prevention, rehabilitation, screening, and treatment. Available through Ebscohost.

**Electronic Journals**
Complete list of the electronic holdings of the Library of Rush University Medical Center. Available at [http://ue2yp5qj3t.search.serialssolutions.com/](http://ue2yp5qj3t.search.serialssolutions.com/)

Harrison’s Online

Health Technology Assessments
A database that offers studies of the medical, social, ethical, and economic implications of healthcare interventions. Contains ongoing and completed research based on trials, questionnaires and economic evaluations. Available through Ebscohost.

MDConsult*
Offers access to medical texts, articles from clinical journals, practice guidelines, drug information, patient education handouts, CME, and daily medical updates.

MEDLINE
The largest biomedical information database in the world. Produced by the National Library of Medicine (NLM). Available through PubMed and Ovid.

MEDLINE In Process and Other Non-Indexed Citations
In-process MEDLINE citations. Provides basic information about articles received, but not yet completely indexed in MEDLINE. Available through Ovid.

National Guidelines Clearinghouse
A source for evidence-based clinical practice guidelines sponsored by the Agency for Healthcare Research and Quality in partnership with the American Medical Association and the American Association of Health Plans. Available at http://guidelines.gov/

Natural Medicines Comprehensive Database
An evidence-based database created by the editors of Pharmacist’s Letter and Prescriber’s Letter that contains monographs on natural medicines, including safety, effectiveness, adverse reactions, interactions, and dosage and administration.

NHS Economic Evaluation Database
A database that provides cost-benefit analyses about healthcare interventions. Assists decision-makers by identifying and describing economic evaluations, appraising their quality and highlighting their relative strengths and weaknesses. Available through Ebscohost.

OLD MEDLINE
Database for articles from international biomedical journals covering the fields of medicine, preclinical sciences, and allied health sciences, originally printed in hard-copy indexes published from 1946 through 1965. Available through Ovid.

Online Catalog
The online catalog of The Library of Rush University Medical Center and the McCormick Education and Technology Center (METC).

PDQ (Physician Data Query)
Contains information about cancer treatment, screening, prevention, genetics, and supportive care, plus clinical trials. Produced by the National Cancer Institute (NCI). Available at http://www.cancer.gov/cancertopics/pdq

PsycINFO
Covers literature in psychology and related disciplines including medicine, psychiatry, nursing, sociology, education, pharmacology, and physiology. Available through Ebscohost.

PubMed
Includes citations for biomedical articles back to 1948. This is the interface to Medline produced by the National Library of Medicine (NLM). Available at: http://www.ncbi.nlm.nih.gov/sites/entrez?otool=iluruslib

Scopus
The largest abstract and citation database in the world. Covers 18,000 journals from more than 5,000 international publishers. Scopus also covers 359 million quality web sources, including 24 million patents.

TRIP Database
The TRIP (Turning Research into Practice) Database is a clinical search engine designed to allow clinicians to quickly find answers to their clinical questions using the best available evidence. Registration is free. Available at http://www.tripdatabase.com/

UpToDate*
An evidence-based clinical information resource specifically designed to answer clinical questions that arise in daily practice.

Visual Dx
This web-based visual decision support database combines medical images with a problem-oriented findings-based search. Search by diagnosis, medication, or patient finding, or use the differential diagnosis builder.
