RefWorks:
How to Install Write-n-Cite

Reina Williams, MLIS
Reference Librarian and Education Coordinator
Let’s begin by visiting the Library of Rush University’s website at rushu.libguides.com
The Library Homepage
Click the **RefWorks** link in the Quick Links menu.
Click the new version of RefWorks on the right.
Sign in to RefWorks using your Rush login credentials
Click the vertical ellipse and then click **Tools**.
Click **Download & Install**

If you use Microsoft Word for writing papers, you’ll love the tools RefWorks provides you. It’s a plugin that allows you to quickly insert and edit citations, adding them to your bibliography as you go.
Downloading will begin

Downloading ...

Your download should start automatically within seconds. If it doesn't, restart the download.

After your download has completed, start the installer.
Click **Run** at the bottom of your browser to install.

_after your download has completed, start the installer._
Click **Next** to continue the installation process.
Click **Install** when you are ready.
Click **Finish** to complete the installation process.
Installation Process is Complete!

- The installation process is complete. The **RefWorks** tab is now available in your Microsoft Word menu.
