The I-Share borrowing program is a great way to borrow items that either Rush University Library does not own, or that are currently checked out. The Rush library has reciprocal borrowing privileges with over 80 libraries. Get popular reading materials, DVDs and more, delivered to the Rush Library for your convenience. You do not need a proxy account to place a request. You will need an active Rush Library account. If you encounter difficulty please call (312) 942-5950 for assistance, or come and visit us at the Library!

**Search**

Navigate to the Rush Library home page and select the red Catalog tab. Then select the second dropdown menu and select “All I-Share Libraries” to search for items at all I-Share libraries, including Rush.

The I-Share catalog allows you to search by title, author, keyword, subject or ISBN.

Try a search for the novel “A Game of Thrones.” Type the title into the search field, and change the search category to title in the drop-down menu. Click Search.

**Select**

The resulting items match my criteria. In this case, the first item is what I want. Click on the title to be taken to the holdings page.

Request

The holdings page includes information about the item, including which libraries own the item and whether the item is checked out. As long as one library has the item in a loaning collection, and the item is available, click Request 1st Available.

Login

Complete the request by logging in. If you don’t have an account, simply click the Create New Account link to create one. On the next page, fill out the short form. Your Borrower ID is the barcode number on your Rush ID.

Submit

Once you have hit request, your request will have been submitted, and the book will be on its way. Books usually arrive within three to five business days. Happy Reading!
